

Welcome Lovro Kuspilic

Wisconsin Rapids Noon Club Exchange Student "09-10"

Pictured at right, Lovro in center on couch, host parents Sue and Doug Berg on each side and Stephanie and Chris on the floor.

Lovro arrived at Central Wisconsin Airport late Wednesday evening, August 12th. After a full day of traveling, Lovro was met by club members and the Doug and Sue Berg family of Grand Rapids. The Berg's will be our first host family. The Rotary exchange committee knows how excited the Berg's are to host and as they are not Rotary members, please thank them for assisting our club and making some dreams happen for Lovro.

Lovro gets registered at LHS on Friday morning and we will report in future little articles such as this about classes and thing going on with Lovro. But for today's post, let's acquaint you with Lovro. Lovro comes from Croatia. He lives in the capitol city of Zagreb which is about 1 million in population. Mom and dad are both attorneys and Lovro sees himself carrying on this family tradition. Lovro enjoys history as a favorite class and participates in debate. Lovro has a younger brother Luka and the family has a terrier named Cindy.

Lovro has a good understanding of the English language so please look him up at meetings, ask him to sit with you, and truly make him our guest. You will find Lovro to be your typical teenager. He likes to listen to music, surf the net, and participate in sports. Lovro especially likes tennis and ping-pong. Anyone up for a challenge or just an opportunity to meet Lovro please go to the closet and dust off your racket.

Lovro has been to France, England, Germany, and Spain among other countries in the region. Just as we travel to the beach, Lovro shares that their family also travels to the coast for sun and fun. Lovro has a skipper's license and is authorized to operate a boat on big water back home. Lovro skis in winter so keep that in mind as well.

Hey morning club and noon club....

...the Rotary youth exchange program changes the world. We know that. We get the opportunity to make a difference in how others see the U.S. Lovro doesn't belong to just the Berg's, or the exchange committee, or the noon club. If you see a way to be a part of Lovro's year please act on it. Lovro will appreciate it and you will be surprised at what you take away from the experience. Look for one of these updates every now and then. This is written one day after his arrival in the U.S. After jet lag leaves we are looking forward to an interview with him. Stay tuned.
